

HOTELS & LODGING

Many area hotels have graciously provided a "Hospital Rate" for family members of our patients, so ask for it when you call to reserve a room. If the hotel asks you for a letter from the hospital, call Clinical Resource Management at (304) 526-2090. After hours and on weekends, call the nursing supervisor at 304-526-2253. Special lodging is also available for family members of patients under certain circumstances.
